

PD / PDQ Series

Pit / Flush Mount Floor Scale

PD / PDQ Series

PD/PDQ series floor scales provide exceptional performance in tough industrial for warehousing, logistics operations, processing plants and chemical operation. Ideally suitable for pallet, drum and package weighing.

Quick connects and immediately with minimal installation and setup.

The PD/PDQ floor scale's anti-corrosion shear beam load cells provide high accuracy and long-lasting reliability.

PD/PDQ adopt rock pin design instead of levelling feet to improve accuracy and performance.

The scale's low profile means that less effort is required to manually place a load on the scale

The digital weight indicator is not included, and Scale-Tech (Global) offers a multitude of models to select from to compliment your scale.
