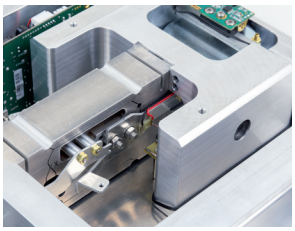
PM C32 Precision Balances

'Advanced level' measurement of large masses with the highest accuracy in laboratory and industry

PM C32, d = 0.01 g

PM C32, d = 0.1 g



Radwag MonoBLOCK™,
an innovative weighing system

PM C32: d = 0.5 g, d = 1 g

Weighing heavy loads with the maximum accuracy

Functions

- Parts counting
- Percent weighing
- Under hook weighing
- Proximity sensors
- Alibi memory
- Checkweighing
- Statistics
- GLP procedures
- Replaceable unit
- Multilingual menu

Technical Specifications

Reliable Results and High Measurement Precision
Excellent measurement parameters and performance enable applying PM C32 balances in laboratories and various branches of industry.

Radwag MonoBLOCK™, an Innovative Weighing System
The cutting edge technology of the measuring system guarantees stability of repeatability in time, where sd<1, and a significant resistance to ambient conditions.

Weighing Heavy Loads With the Maximum Accuracy
It is possible to work with samples of different weight values, from few grams to several kilograms, wherein the highest measurement accuracy and excellent result repeatability are maintained.

Reliability and Safety
4-point protection system prevents balance overloading, this ensures safety in case too heavy load is applied onto the weighing pan. Robust design allows to operate the device even in the most challenging ambient conditions.

Ease of Use and Maximum Comfort of Operation
5" colour screen enables intuitive operation and easy access to numerous applications and functions. PM C32 program allows screen layout customization.

Automatic Adjustment
Internal adjustment system guarantees the highest accuracy and reliable measurements results.

Touch-Free Operation
Two programmable proximity sensors can be assigned with any function or application. The given function when assigned is both run and operated touch-free.

Numerous Options of Data Management
The instrument enables saving all completed measurements data as complex reports and graphs.

Technical Specifications

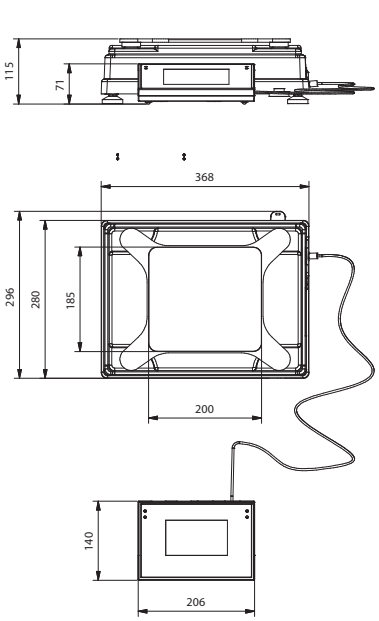
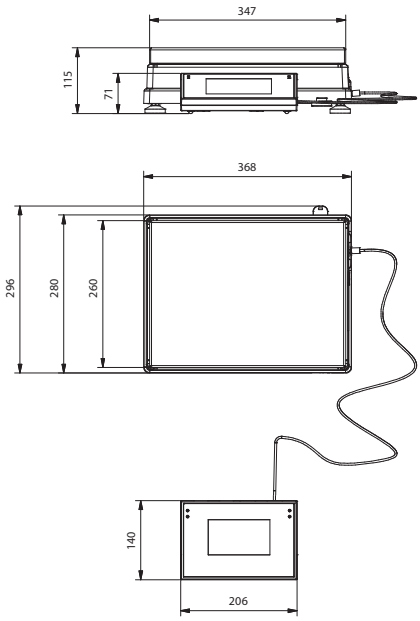
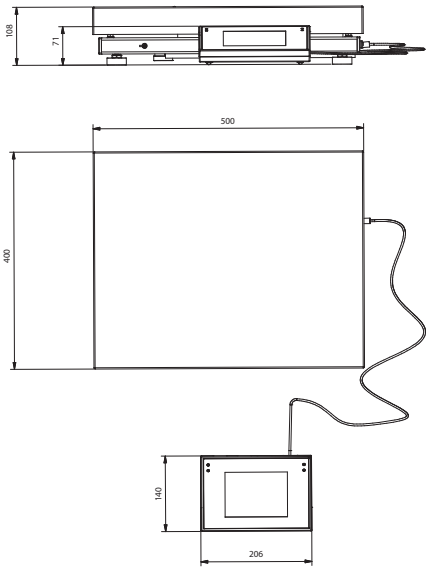
Dimensions



PM C32, d = 0.01 g



PM C32, d = 0.1 g



PM C32: d = 0.5 g, d = 1 g

Accessories

Weighing Tables
- granite antivibration table
- antivibration tables for laboratory balances

Peripheral Devices
- Epson dot matrix printer
- barcode scanners
- WD-6 LCD display

Electrical accessories
- ZR-02 power supply with battery

Cables, Converters
- P0108: RS 232 cable (balance-computer)
- P0167: RS 232 cable (balance-computer)
- P0151: RS 232 cable (balance - Epson printer)
- AP2-1 power loop output
- IN/OUT cables

Draft shields and anti-draft chambers
- storage case for PM 10 kg, PM 15 kg, PM 35 kg, PM 50kg, PM.KB balances

Dedicated Software

R-LAB
- collecting measurements
- carrying out statistical analysis of measurements
- customized graphs and reports

E2R Weighing Records
- complete, automated databases synchronization
- fully supported processes of labelling and parts counting
- record of weighings, weighings archiving
- basic and advanced (with graphs) reports

Alibi Reader
- readout of data saved to Alibi memory
- export of data saved to Alibi memory
- data filtering and reports generating
- saving ALIBI database to CSV file

R.Barcode
- The basic function software is presentation of the data sent by barcode scanners connected to PC via USB or RS232

RAD KEY
- Establishing cooperation between a weighing instrument and a computer

Radwag Development Studio
- presentation of functions (and subfunctions) of communication protocol (Common Communication Protocol)
- possibility of connection with weighing equipment on which each function is carried out,
- library with mass control, contained within the development environment
- complete documentation of the communication protocol
- set of user manuals for different solutions addressed for programmers employed in companies using RADWAG-manufactured weighing equipment

RADWAG Connect
- establishing communication with all balances, scales and weighing modules using Common Communication Protocol
- communication via local network,
- support of basic functions
- auto searching for devices
- connecting with few devices simultaneously, swapping between them
- clear list of connected platforms
- record of measurements in the program,
- export of carried out measurements to CSV file,
- work performed using freely selected device with Windows 10 operating system

LabView Driver
- operation of RADWAG balances in LabView environment
